High AgroTunnel Datasheet

DIMENSIONS

Span width (a)	8 m; 9.6 m;
Sides columns and arches spacing (b)	2 m; 2.5 m; 3 m
Side height (c)	2.5 - 3.5 m
Ridge height	3.95 m; 4.5 m; 5 m
Inside columns spacing	2 m; 2.5 m; 3 m; 4 m; 5 m
Growing bar height	3 - 4 m

STEEL STRUCTURE

All the structure is manufactured with Galvanized steel, using Sendzimir Z275 or hot-dip process

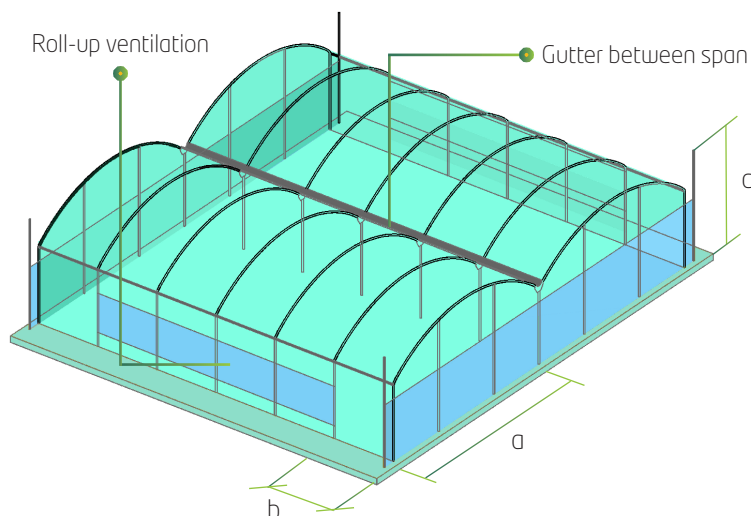

Gutters	Magnelis®, Sendzimir Z275 galvanization between span
Pillars	Round or square section. Sendzimir Z275 or Hot dip
Arches	Round arches Ø 60 mm
Growing bar/Crop support	Ø 40 mm
Reinforcements	Ø 32 mm
Square reinforcements	Corner and frontal reinforcements

VENTILATION

Gable-ends and sides	Film Roll-up ventilation. Mesh net optional
----------------------	---------------------------------------------

DOORS	Sliding doors
-------	---------------

SHADING NET	Different shades and mesh available
-------------	-------------------------------------

COVER

Horticultural Plastic film

Ethylene Vinyl Acetate
 Thickness: 180 or 200 microns
 Light transmission: 90%
 Assembling with PVC or zig-zag steel

Corrugated polycarbonat

Valor K: 0.172-0.175
 Valor U: 5.69-5.80
 Thickness: 0,9 mm
 Light transmission: 90%
